SUSTAINABLE INSULATED PACKAGING

FACTSHEET: END OF LIFE

All components of WOOLPACK can be responsibly disposed at its end of life without having to go to landfill.

THE WOOL

Our wool is compostable, suitable to bury in your backyard, releasing valuable nutrients back into the soil!

Alternatively, customers find many uses for Woolpack around the home, such as:

- Weed matting
- Pipe lagging
- Pet bedding
- Carpet padding
- Mulch/Worm farming
- Hanging baskets
- Veggie patch
- Growing micro-greens (salad)
- Arts and crafts

THE FILM

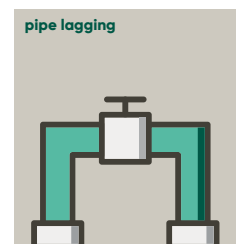

We are proud to offer our customers the option of a home compostable or recyclable film. Recyclable film can be placed in recycled bins or arranged for bulk pickup via local providers.

THE CARTON

The corrugated carton is recyclable through your local council.

Alternatively, there are many other ways to reuse your carton:

- Cat mansion
- Fort or spaceship for the kids
- Packing cartons or storage
- Arts and crafts

Re-use is only limited by one's imagination!

because there's no planet B!
